Crop Returns.

Report, for October, furnishes an encour aging exhibit of the yield of cereals throughout the country. The wheat crop did not suffer so much from wet weather as was feared, so that the deficit in quanity and quality will not prove to be onehalf as large as the August report prelicted. Of wheat, rye, barley and oats together, there were raised in 1863, 385,-355,584 bushels, in 1864, 367,891,040, and foring the past year, 404,710,315 bushels, an increase since 1864 of 36,828,275

The yield of hay is more than five mil ions of tons larger than last year. The orn crop is the largest ever raised in the United States.

Assuming these estimates to be true there is reason to hope that there may be reduction in prices, as the various are brought forward to market.

Programme of the Fenianism.

Mack didn't want to,"

[From the Teronto Watchman (organ of the Grang societies) Nov. 3.] We have now in our possession a por ion of the intended programme of the Fenian modus operanai in reference to Canada, and hence we are in a position to corroborate Mr. Perreaulf's statement as to the intentions of a raid on Canada at an early day. We are still in communica-tion with a certain party on this subject, and as soon as we have learned all we can we will give the public the bene fit of our inquiry. In the meantime we advise the banks to be careful and place cers in command should be careful as to the character of the men who act as sentinels, as, from our present knowledge, the Fenians calculate on great things first, from rebel soldiers in them, they think, in possession of extensive funds wherewithal to carry on their plans. Now, this is nothing more than Mr. Perreault hints at, and should not be treated as mere rumors. Let those who treat them as such bear the responsibility. We are also informed that there are sur hundred Fenians in Toronto, "armed to the teeth," each man having a revolver and And now let us direct attention to one

beings, and yet no steps are taken. Mr. Michael Murphy can go with impunity and take part in Fenian conventions, and other Fenians can boast in our streets of being such—open and avowed enemies to the Queen and constitution, and there is no redress. A member of Parliament can stand on the threshold of a Romish FRENCH AND AMERICA'N PRINTS, can stand on the threshold of a Romish church in Canada and declare his sympathy with the Fenian plot, and tell us holdly they intend taking Canada during the present winter, and still the government is inactive. In it because some of its mem-Is it possible that the Canadian Premier and the President of the Council can wink at these things and in sincerity tell us they prefer British connection? We shall see.

Mr. Schade, in an interview with the President, showed affidavits from Union prisoners impeaching the testimony of a winess claiming to be a grandson of Lafayetre, asserting that he was a common Jew from New York The same witness claimed he saw Wirz murder a man in stockade.

Wirz still maintains an air of sung froid The wound on him is painful. He feels not resentment against the President or court martial, but it is impossible to repress his feelings of resentment against the witnesses. He has given up German novels. He complains of the injustice of the Government in not staying the proceedings of the court till fourtesen of the most important witnesses could reach him.

In the well and out of it, was his individual property. The Provest Marshal gave him an official wink, and intimated that 'all was right.' Mack thought if it was not it would be in the end.

"A strong posse of freedmen was sent down into the well to work. Bucketful after bucketful of rubbish and mud was drawn out. But no tressure as yet made its appearance.
